AREVA Supports Genworth Virginia 10 Miler with Safety Sponsorship and 110 Participants

LYNCHBURG, Va., October 1, 2015 – For the third consecutive year, AREVA Inc. served as the official safety sponsor of this week’s Genworth Virginia 10 Miler held in Lynchburg, Va. The safety sponsorship included the Safety, Awareness, Fitness, Excellence (S.A.F.E.) Strides initiative, a comprehensive fitness and safety training program offered to all runners in the 10-mile and 4-mile races to help ensure they crossed the finish line the way they began: safe and injury free.

“At AREVA, safety is first and foremost in every aspect of our business,” said Gary Mignogna, president and CEO of AREVA Inc. “Programs like the Genworth Virginia 10 Miler S.A.F.E. Strides program help emphasize AREVA’s unyielding commitment to safety both at work and in our communities.”

In alignment with the company’s strong focus on health and wellness, more than 110 AREVA employees and their families participated in the 10-mile and 4-mile run or walk events. Throughout the year, AREVA encourages employees to engage in a variety of activities supporting improved health in the areas of nutrition and weight management, fitness, stress management, and tobacco cessation and prevention.

Cool temperatures and the occasional downpour couldn’t keep Team AREVA away from the 2015 Genworth Virginia 10 Miler!

MORE ABOUT AREVA

AREVA in North America (AREVA Inc.) combines U.S. and Canadian leadership to supply high added-value products and services to support the operation of the nuclear fleet. Globally, AREVA is present throughout the entire nuclear cycle, from uranium mining to used fuel recycling, including nuclear reactor design and operating services. AREVA is recognized by utilities around the world for its expertise, its skills in cutting-edge technologies, and its dedication to the highest level of safety. Through partnerships, the company is active in the renewable energy sector. AREVA Inc.’s 4,300 employees are helping build tomorrow’s energy model: supplying ever safer, cleaner and more economical energy to the greatest number of people.
