

# Framatome receives Top Employer 2022 certification for France and Germany

**January 20, 2022** – Framatome today announced that it received the Top Employer 2022 certification for France and Germany from the Top Employers Institute, a global authority recognizing excellence in people practices.

The Top Employers Institute certification program enables organizations to assess and improve their workplace environment. Companies are selected based on their Human Resources best practice results. The qualification covers six major areas of HR, divided into 20 topics such as human resources strategy, the working environment, talent acquisition, training, well-being at work, and diversity and inclusion.

“By receiving this certification, Framatome demonstrates that excellent HR practices in the workplace is a priority,” said Jean-Luc Minard, director of Human Resources at Framatome. “The HR team continues to meet the challenges of a changing workplace while prioritizing the positive impact it has on the lives of its employees.”

Certified in France for the first time in 2021, Framatome is consolidating its position as a reference employer with the new 2022 certification to include France and Germany. This certification underlines the involvement of Framatome’s HR practices and the coherence between its business strategy and HR policies. The priority given to well-being at work and culture of ethical conduct and integrity, complements Framatome’s employee expertise and its attraction for new recruits.

As nuclear energy gains momentum in the development of low-carbon energy, the demand for resources is escalating. Framatome’s ambitious recruitment plan is in place to hire more than a thousand candidates this year. These new hires will strengthen the company’s international presence and technical expertise in the areas of engineering, research and development, project management, production and maintenance.
