

## Cybersecurity Solutions

### People and Competencies

Reliable, sustainable and independent cybersecurity solutions for industries.

#### Challenge

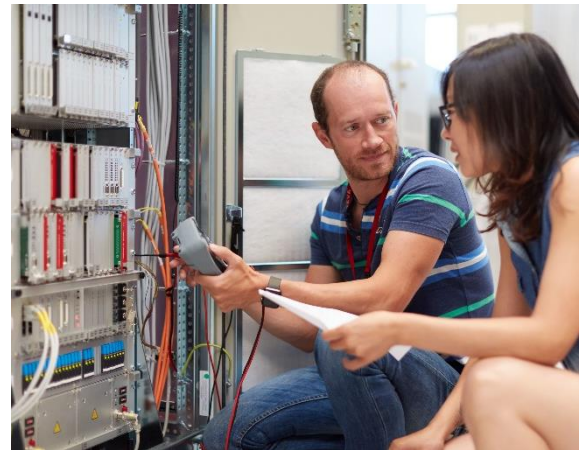

79% of successful cyberattacks use human vectors. Cybersecurity is no longer the responsibility of a service or of a department, it is the responsibility of everyone. Awareness of cyber threats (both digital and physical), training on maintaining critical assets, responding to cyber attacks, are crucial to ensuring business continuity in this digital age. With evolving regulations, and ever-changing cyber risks, industries need employees well-versed in cybersecurity.

#### Solution

For over 60 years, Framatome has been designing nuclear power plants, manufacturing components, integrating instrumentation and control systems, and servicing all types of nuclear reactors. We understand the unique needs and challenges of critical asset owners, especially when it comes to people skills and competencies.

Framatome offers cybersecurity training based on the latest industry regulations and standards. Tailor-made learning tools designed by experts in collaboration with operators to perfectly match real cybersecurity challenges.

Framatome builds multi-purpose, versatile and modifiable training courses designed for accelerated learning experience. Our training and certification program allows your team to build the skills and competencies necessary to sustainably maintain a high level of cybersecurity requirements.

#### Technical information

“People & Competencies” is at the heart of Framatome cybersecurity solutions. It includes the following key aspects:

- Cybersecurity training plan
- Cybersecurity awareness program
- Operator training modules
- Cybersecurity certifications

#### Customer benefits

- Customizable training modules.
- Self-service on-demand, or instructor-lead sessions.
- Best-practices, and lessons-learned from 60+ years of supporting critical asset owners.
- Global presence with local autonomy.

**Your performance**  
is our everyday **commitment**
