

Pressurized equipment

For Petrochemical, Pharmaceutical, Aerospace, Hydrogen, Navy and Defense

A 45-year experience in manufacturing of pressurized equipment

Challenge

Manufacture large pressurized equipment that complies to customer specification, construction codes and regulation. Demonstration of conformity at each step of manufacturing.

Solution

Framatome's Saint Marcel plant manufactures a wide range of pressurized equipment with a high quality standards. Full scope of responsibility:

- Design Engineering, Mechanical calculation and Licensing
- Manufacturing Engineering
- Prototyping and serial production
- Management of sub-contractors and suppliers
- In-house manufacturing and inspection (UT, X-Ray, pressure test)
- In-house production of forged and casted parts
- Worldwide transportation

Framatome relies on:

- Large industrial capacity of workshops
- ISO and ASME certified Quality Assurance System
- Certified ISO 17025 Laboratory
- Large panel of qualified sub-contractors and suppliers
- Expertise in key competences

Customer benefits

- Safety and Quality Conformity
- Trusted supplier with a proven experience
- Flexible and large industrial capacity
- A plant managing the whole process (engineering, procurement, manufacturing, transportation and after-sales)

Your performance
is our everyday **commitment**

© Framatome

Technical information

Typical materials : carbon and stainless steel, nickel base alloys,...

Height up to 25 m
Diameter up to 5,5 m
Weight up to 530 t

Pressure up to 150 Bar
Temperature up to 350 °C

- Capacity to manage several manufacturing codes
- International Regulations

Key figures

45 years of experience in manufacturing of pressurized equipment

> 400 Pressurized Equipment

Manufactured and Delivered by Saint-Marcel Plant since 1975
