

### The most innovative Training for Newcomers

"Our **180 day sprint** training is designed for newcomers to the nuclear sector"

#### Challenge

We - Framatome - place nuclear safety at the top of our priorities!

**Newcomers** to our industry must quickly develop the necessary **safety awareness**. Especially in the case of newcomers from outside the industry, it is even more **important** to get this right from the **start**.

The **know-how** and **know-why** of our employees will make the difference between **successful** and less successful **companies** in the near future. We can already see the effect today and have therefore decided to create a completely new and **innovative training** format to build this bridge.

#### Solution

- **Most innovative on-boarding training in nuclear technology**
- **2.5 weeks net**, spread over the first 180 days in the company
- **Each week** approx. **3 hours** of learning
- Hybrid format: **80% on demand E-learning** and online live sessions with experts
- **20% practical training** (3 days): real measurements, behavior in control area, ESCAPE ROOM etc.
- **Alumni Club: B2B network**

#### Customer benefits

- **Newcomers** receive the most important nuclear **content** in a **single training**
- Employees **stay on the job** (hybrid format)
- The **most modern** learning **concept** in the nuclear energy sector
- **Professional** and compact **on-boarding** instead of booking several individual trainings
- Training content **can be adapted** to the needs of the company. Designed for the **new generation**

Dr. Hendrik Wiesel, Manager Competence.hub

#### Training Content

##### E-Learning Videos:

- Nuclear fundamentals
- Applied radiation protection
- Nuclear Safety Culture
- Legal - national & international
- Fuel cycle, production & plants
- Dismantling of nuclear facilities
- Nuclear waste management & final disposal
- Economic aspects of nuclear fuel
- Quality assurance & operation experience
- Communication with authority and management + reporting chains
- Human Performance Tools
- Nuclear Project Management

##### Live Practical Session:

- Dose rate measurement
- Decommissioning in control area
- How to behave in a controlled area
- ESCAPE ROOM

##### Alumni Club

- Live and online
- B2B Meeting between Young Generation (FH Aachen) and Industry
- Easy entry into the nuclear community
- Social Event
