

Framatome spare parts solution

For primary loop coolant pump

Framatome Jeumont supplies Reactor Coolant Pump spare parts

Challenge

Finding spare parts from a reliable supplier compliant with quality and safety requirements. Framatome Jeumont supplies long lead time components and urgent spare pieces to any reactor coolant pumps operator. Parts complies with applicable construction codes and regulations.

Solution

Framatome's Jeumont plant manufactures primary loop coolant pumps with the highest level of safety and quality standards. The designed authority and the maintenance teams are located within the same facility, allowing maximum efficiency between engineering, manufacturing and commissioning.

Framatome can offer a range of spare parts for primary type pumps 93, 93A, 93D, 100, CPR1000, N4, EPR, M310, AJ124D, wet pit pump and expertise available for numerous pump applications (PWR; BWR, VVER & CANDU) and for defense and navy activities.

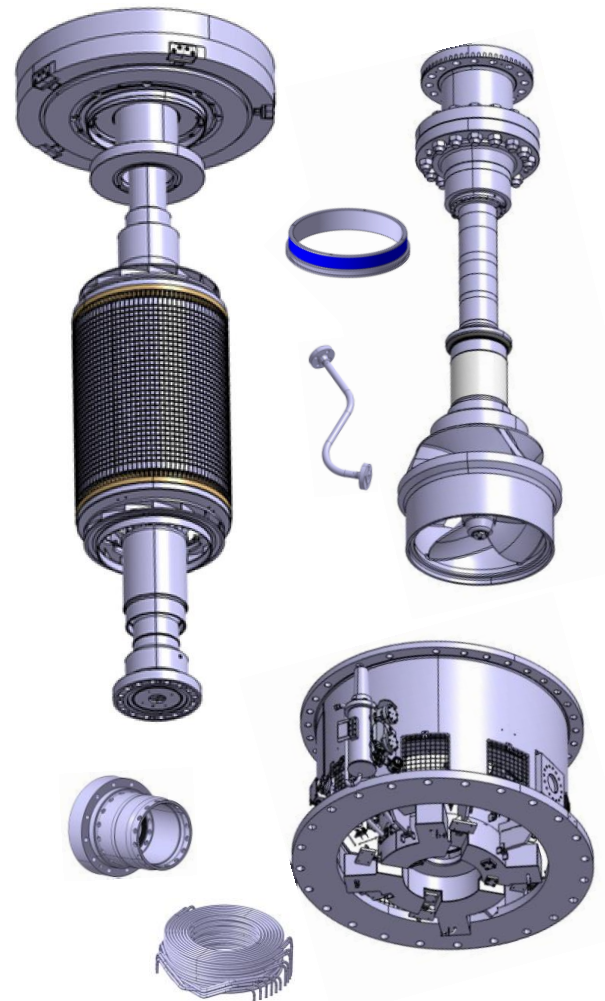

RCCM, ASME and GOST construction codes are applicable to spare parts.

In addition, Jeumont's plant is able to provide commissioning on many reactor models including the newly commissioned EPRs as well as the GMPP where Framatome is not the original equipment manufacturer.

Customer benefits

- Safety and Quality Conformity
- Internationally trusted supplier with a proven experience
- Flexible and large industrial capacity dedicated to plant mobile equipment
- A one stop-shop managing the whole process (design, engineering, procurement, manufacturing, test, transportation and commissioning)

**Your performance
is our everyday commitment**
