Challenge

During operations in harsh environment, operators need a quick access to required technical documentation in order to be efficient and reduce their dose exposure.

Solutions

Framatome has developped 4 applications in mixed reality in order operations safety and operations quality.

- **H2V Augmented Nuclear Fieldworker:** teleoperation app
- **H2V DosiViewer:** dosimetric data treatment in a 3D environment
- **H2V Universal Viewer:** 3D models display thanks to tool boxes
- **H2V Video Viewer:** televisual inspection apps

Customers benefits

- Dose exposure reduction thanks to an easy access to technical documentation
- Easy and quick access to operations process thanks to a rich database of technical documentation
- Technical assistance in real time thanks to remote operators

Technical Information

- Connected to the off line local network
- Multi connections at the same time
